

# 700mm Mini Round Baler

The 700mm Mini Round Baler makes baling a breeze. Aim to have your windrows at 800mm wide, optimal for pickup. This unit features dual twine spools plus electric alarm and bale ejection control, which is easily passed through to the tractor.

The alarm is triggered automatically once the bale has reached optimal size. The operator simply stops the tractor and activates the bale ejection control, the Baler does the rest for you, including cutting the twine, ready for the next bale. As a failsafe, the Baler will automatically stop if a bale becomes too large, in the event the operator fails to eject a completed bale.

With its mostly automated operation, productivity is increased, meaning the operator won't have to leave the comfort of the tractor seat.

<b>Hitch</b>	3 Point Linkage
<b>Tractor Power Required</b>	30-50 HP
<b>Bale Size</b>	610mm x 700mm
