

# Twin Row Economy Push Seeder

 Some Assembly Required

The Twin Row Economy Push Seeder, a budget-friendly alternative that doesn't compromise on functionality. It's the perfect choice for small-scale growers seeking precision in planting small to medium-sized seeds. This kit includes five seed rollers tailored for various common seed sizes.

This Push Seeder is a must-have for any market garden. Enhanced seed-to-soil contact ensures optimal germination rates, and its meticulous seeding design is perfect for all row crops. With interchangeable gears, you can effortlessly modify the in-row seeding density. The clear quick-release hopper not only allows a visual on the seed levels but also facilitates swift roller and seed changes in the field. Plus, the hopper lid features a convenient sizing gauge to help select the right roller.

The standard shoe can be adjusted to guarantee the right seeding depth. The handle's height is customizable for user comfort. Its front plastic drive wheel, besides ensuring smooth traction, also operates the seed hopper release. Meanwhile, the rear wheel ensures the seed is snugly covered post-seeding. To further enhance its adaptability, the seeder comes with six interchangeable sprockets to adjust the in-row spacing.
