

Skid Steer Trencher

Need to lay cables, drains, or pipes fast - without tearing up the entire site? This trencher is the perfect solution. Designed for speed and precision, it cuts clean trenches with minimal disruption to the surrounding ground. All excavated soil is neatly moved to the right side of the trench, keeping your jobsite tidy and professional with barely a trace of the digging operation. Built for performance and reliability, the trencher features a heavy-duty hydraulic motor and planetary final drive, delivering smooth, trouble-free operation even in tough conditions. Best of all? It digs 2-3 times faster than a traditional backhoe - saving you time, labour, and money.
