

Three-Point 50mm Tow-bar

The 3 point linkage tow bar makes lifting your trailer easy. Ultra strong design makes the tow ball easily visible from the drivers seat of your tractor. Robust all-steel construction makes it easier to connect and remove from your tractor. Can also be used to raise your drawbar on your boat trailer to drain water from your boat after a day fishing.

Tow your trailer around your paddock or farm to move water & diesel tanks, chainsaws, toolboxes, stock feed, small tanks, hay, hoses, generators... Take advantage of your tractor's rear end and lift the tow bar up and down hydraulically - no more sore back! The 3-Point towbar has got you covered... Suits any trailer with a 50mm tow hitch. Strong steel frame, dual category options, easy to attach, a breeze to store. Optionally swap the ball for a conventional drop pin.
